WHY YOU SHOULD ATTEND

Diversity isn't a sometimes issue, it's an always issue and once we start to take an honest look at diversity of race and age, we will automatically and positively impact the other protected characteristics under the Equality Act 2010.

In this session, Sharon will focus on the primary reasons why having a variety of cultures and backgrounds can make your school/academy more adaptable to an ever changing environment. It will also look at how setting an example at the top, will ultimately have a trickle-down effect for more diversity in senior and middle leadership for the ultimate benefit of the children/students.
